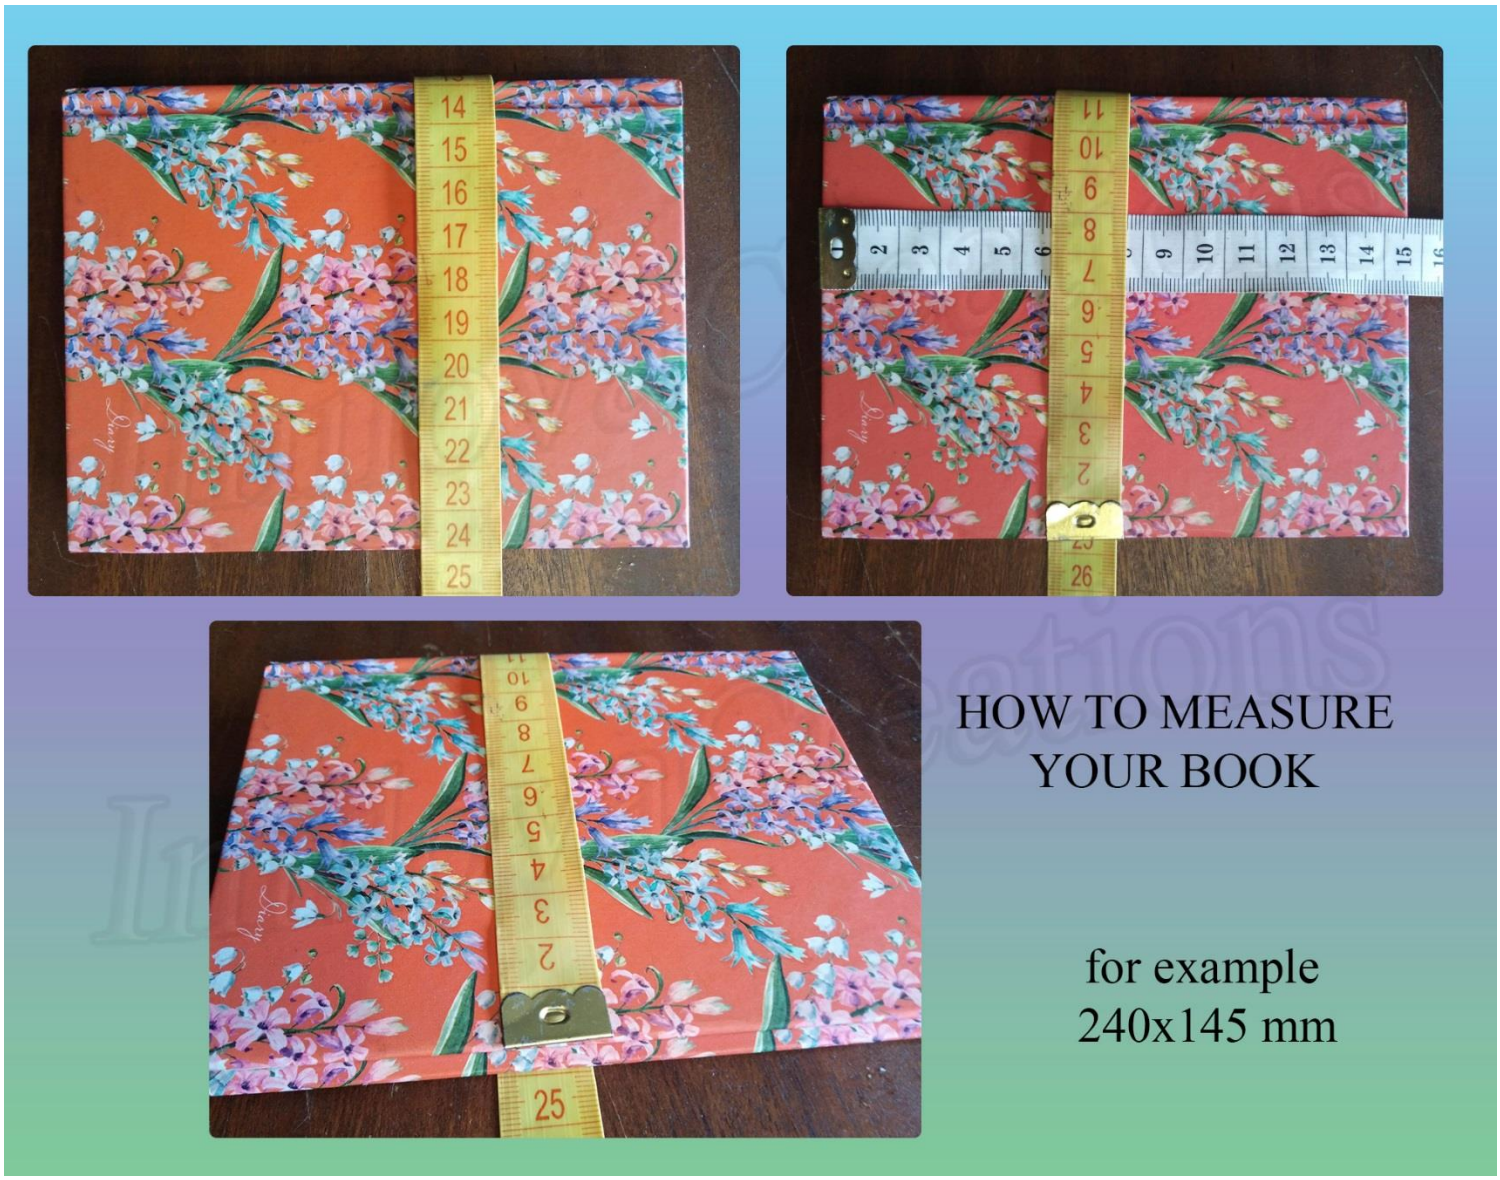
Cover for planning

To determine the size of the design - Measure your book, as in the photo below.

Use the table to select the necessary files. Pass these files to the machine.



the size of the book				the size of the design				Fabric consumption							
								the main fabric, lining, batting 1 piece each				the main fabric (2 pieces) for the pockets			
mm		inches		mm		inches		mm		inches		mm		inches	
width	height	width	height	width	height	width	height	width	height	width	height	width	height	width	height

Recommended fabrics.

The choice of fabric depends on your preferences.

I use eco-leather and vinyl leather with a thickness of 0.6-0.85 mm. If the skin is very thin, it should be glued with a thin dublerin.

The filler – rubber foam with a thickness of 5 mm or polyester batting 80 or 100.

Pay attention

this is a universal instruction.

This instruction will work with most of my cover. So the patterns in the photo may be different (I'm sorry). But Photos with this purchased design will be placed next.

	Hoop tearaway or water-soluble stabilizer. Stitch Color 1 - the placement line for design
	Turn the hoop over so the wrong side is up.

	Place Lining right side up. You can use temporary fixation glue
	Put polyester batting. You can use temporary fixation glue
	Stitch Color 2

	Cut off the exceed the polyester batting around near stitch. I recommend cutting the polyester batting at this stage to avoid thick seams.
	Put the main fabric face up. You can use temporary fixation glue
	Stitch Color 3-5 
	Do the pockets Take 2 pieces of basic fabric for pockets (sizes in the table) turn to the back side. Measure 8-9 cm Place your pocket as shown. Fix the adhesive tape
	Stitch Color 6 - secure the pocket (zigzag for cutting)
	Cut off the exceed material around near zigzag stitch, on both sides of the hoop.

	Stitch Color 7 - satin border Cut stabilizer. Remove the stabilizer residues with a wet sponge
