Gift Card Holder In The Hoop

Instructions:

1. Using fabric that won't fray, such as felt or vinyl, first stitch the file that has "Side 1" at the end of the name. Use a 4x4 or larger hoop. This will be the first side of your gift card holder.
2. Side 1 begins with a placement step and tack down step.
3. After the tack down, trim to ¼" on all sides.
4. The next step is decorative stitching across the top.
5. Next, if this design includes a decorative design for this side, it will stitch across the applique area of side 1. If the design includes applique, there will be a placement, tack down, and satin stitch for the applique area. Trim the applique between the tack down and satin stitch.
6. Once the file for side 1 is complete, remove it from your hoop and trim the top as close as you like, but wait to trim the bottom and sides.
7. Using fabric that won't fray, such as felt or vinyl, first stitch the file that has "Side 2" at the end of the name. Use a 4x4 or larger hoop. This will be the other side of your gift card holder.
8. Side 2 will run a placement stitch, then a tack down stitch. Trim once complete.
9. Next, if this design includes a decorative design for this side, it will stitch across the applique area of side 2. If the design includes applique, there will be a placement, tack down, and satin stitch for the applique area. Trim the applique between the tack down and satin stitch.
10. Once the design is complete, it's time to assemble the gift card holder. The final step of the design is a to sew the two pieces together.

Optional: Before the final step you can float a piece of felt or vinyl to conceal your stitches. With the wrong side facing the stabilizer, float the piece using either tape or pins. (Do not use spray adhesive as this will make your gift card holder sticky!) If using felt or vinyl to conceal stitches, make sure to sandwich the felt between the front and back pieces.

11. Remove the assembled gift card holder and trim around all 4 sides as desired.
