Scissors case

Video manual on the link. (Sorry that the video is without sound)

https://youtu.be/AJbkQwulTyY

Pay attention this is a universal instruction.

This instruction will work with most of my scissors cases. So the patterns in the photo may be different (I'm sorry). But Photos with this purchased design will be placed next.

Your purchase is only 1 design option

Recommended fabrics.

The choice of fabric depends on your preferences.

I use eco-leather and vinyl leather with a thickness of 0.6-0.85 mm. If the skin is very thin, it should be glued with a thin dublerin. The filler – rubber foam with a thickness of 5 mm or polyester batting 80 or 100. Also need the button.

Download the archive to your computer. Extract the files from the archive.

Measure the height of your scissors and select the desired file

Download file to your embroidery machine in the way you are used to.

Cut the fabric, lining and batting the size and quantity according to the table.
