ITH MACHINE EMBROIDERY PATTERN

for

GNO ME FEET

INSTRUCTIONS:

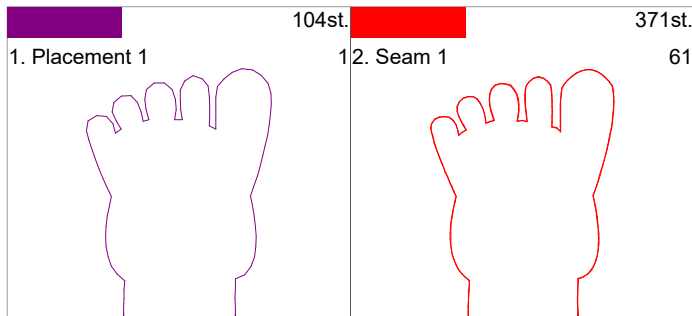

1. Hoop some cut-away stabilize.
2. Stitch COLOR 1 for a placement guide on your stabilizer.
3. Place 2 layers of stretchy fabric, RiGHT-Sides-Together, to cover the placement stitches.
4. Stitch COLOR 2 for a double-stitched seam.
5. Unhoop and cut away excess fabric from seams, leaving a scant 1/8" seam allowance.
6. Turn right-side-out using hemostats or other tool for turning small tubes.
7. Stuff on one side only - between stabilizer and skin fabric. Stuff each toe with a ball of stuffing, then use a larger wad for the ball and heel of feet.
8. Fold the turning flap and glue to the unstuffed (backside) of the foot.
9. Glue to the foot to your gnome or other sock-type of doll with fabric glue by applying glue to the bottom half of the backside of foot.

Single foot for 4x4 hoops
