8 x 8	8,00	8,00	203	203	9,60	9,60	243	243

Hoop tearaway or water-soluble stabilizer.

Stitch Color 1 - the placement line for design

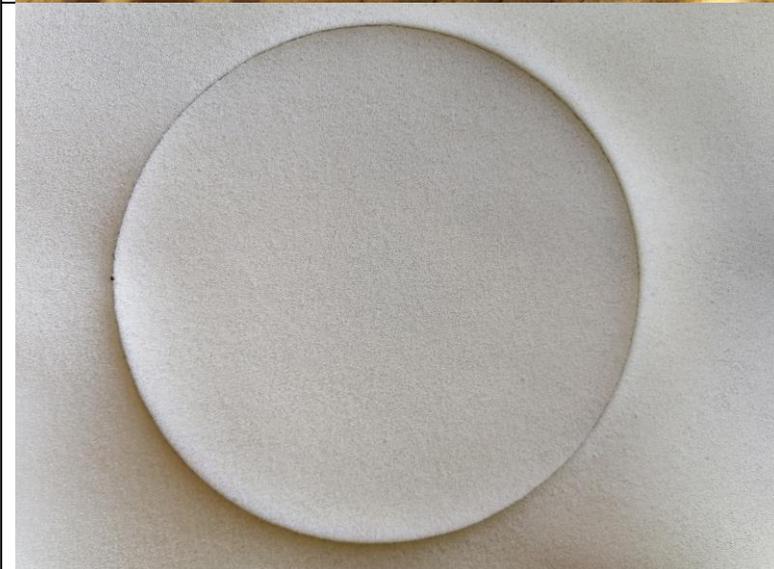

Remove the hoop from the machine and turn to the back side.
Place the Backing fabric face up on the back of the hoop.
Fix it with glue or adhesive tape.

In this case, the coaster will be double-sided.
If you don't want the double-sided coaster, don't add the Backing Fabric now. Add the Backing Fabric after stitching color 3.

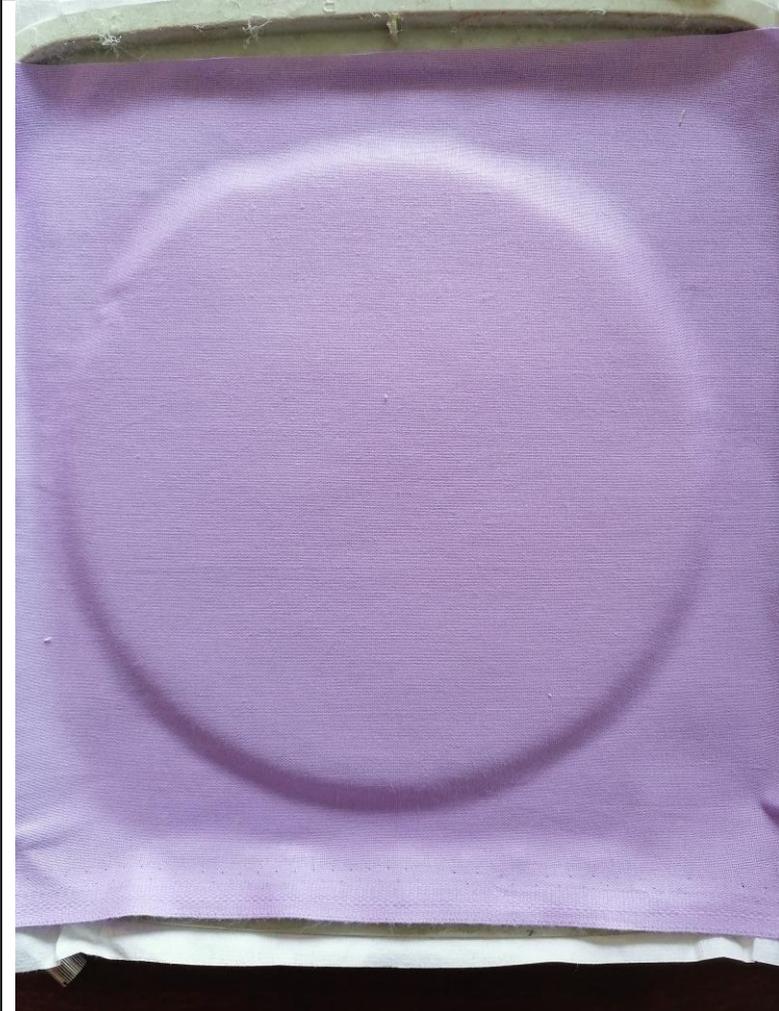

Put polyester batting.
You can use temporary fixation glue.

Stitch Color 2

Cut off the exceed the polyester batting around near stitch.
I recommend cutting the polyester batting at this stage to avoid thick seams.

Put the main fabric face up.
Fix it with glue or adhesive tape.

Stitch Color 3

Stitch Color 4

Place the Backing fabric face up on the back of the hoop now, if you sew a one-sided coaster.

Stitch Color 5 - zigzag for trimming

Cut off the exceed fabric close to the stitch on both sides of the hoop.

Stitch Color 6 - satin border.

Remove the stabilizer.

If you used a water-soluble stabilizer, I recommend that you wash it completely leaving it in water for several hours and rinse thoroughly under running water.

The coaster is ready.

Thank you for your purchase. I hope you liked my design.
