Lighted Easter

This project is very simple and completely sewn in the hoop. There are 6 bunnies and 6 decorated Easter eggs included in the set.

All of these designs fit the 4x4 hoop. The finished size is approximately 3" square.

Supplies:

Felt for the front and back of the decorations. We choose pastel colors for the fronts but you can use white if you prefer. We used scraps of the colors to mix and match on the back of each one.

No Stabilizer is needed if your felt is thick. Sew a test one to see if your felt will hold the stitches. If not, you can use any light weight stabilizer (tear away, mesh, or cutaway - your choice).

Mini Lights - There are many different brands of lights on the market. You can use Christmas tree lights that need to be plugged in or a string of battery operated lights (we found these in Michael's).

Please sew just one design first - and check to make sure the lights you have fit in the hole at the top!

Embroidery Steps:

This project is about as easy as it can get!

- Hoop one layer of felt (you shouldn't need any stabilizer)
- Sew out one of the designs.

For the Bunnies:

- We used black for the face as well as the blanket stitch - you are welcome to use whatever color you like
- The first color stop will do the eyes and part of the whiskers.
- The second color stop continues with the nose, mouth and whiskers and then will do the blanket stitch at the top of the bunny ears
- At this point **STOP!**
- Slide another piece of felt underneath the hoop. It only needs to be about 4" square. Make sure it is centered behind the design.
- **Do NOT change thread colors here.** Continue sewing with the color used in the previous step.
- Sew out the final color stop to sew the front to the back with a blanket stitch
- Trim around all layers with pinking shears for a fun finish. If you don't have pinking shears, use your regular scissors and cut about ¼" away from the stitching line all the way around.

For the Easter Eggs:

- We used black for the face and then chose a pastel color for the egg decorations and the blanket stitch - you are welcome to use whatever colors you like
- The first color stop will do the face.
- The second color stop will do the decorations on the egg and then continue on to do the blanket stitch at the top of the egg.
- At this point **STOP!**
- Slide another piece of felt underneath the hoop. It only needs to be about 4" square. Make sure it is centered behind the design.
- **Do NOT change thread colors here.** Continue sewing with the color used in the previous step.
- Sew out the final color stop to sew the front to the back with a blanket stitch
- Trim around all layers with pinking shears for a fun finish. If you don't have pinking shears, use your regular scissors and cut about ¼" away from the stitching line all the way around.

That's all it takes to make these cute Easter decorations.

Assembling the String of Lights:

The design leaves a small opening at the top of each decoration for you to insert a light. If the opening is too wide, use a small dab of glue or tape to hold the decoration to the light. If the opening is too small, very carefully snip just one thread at a time to make the opening just a little larger until the lights you have fit.

Tips about lights:

- Strings of lights are NOT all the same. The ones we used have lights about every 6 inches so we could put a Decoration on every light. We did find that the lights tend to twist (one pointing up and the next pointing down). When that happened, we put the designs on every other light.
- There are LED lights which are more expensive but do not necessarily add anything to this project. If you have a choice between LED and regular mini lights, choose the regular ones to save money.
- Michael's carries a pack of battery operated lights with 10 lights on the string that also work with this project. These lights are about 6 inches apart.
- If you like this set, we also have other "Lighted Sets". If you don't glue these decorations in place, you would be able to switch them out for the one of the other design sets.

Lighted Pumpkins

Lighted Snowmen

Lighted Christmas Bulbs

Lighted Valentines

Lighted Shamrocks

Little Charmers - Lighted Easter

The colors listed here are only suggestions - feel free to use the colors that you prefer. All of these designs have been sewn out several times on different machines with no stabilizer (please see the instructions for suggestions about this).
