**PLEASE TREAT FABRIC WITH TERIAL MAGIC BEFORE YOU HOOP!**

Greetings!

***It is so important to treat your fabric with a stiffener or starch-type product.***

You will be so much happier with the results of your stitch out.

For best results, I recommend Terial Magic. It is THE VERY BEST fabric treatment that helps to prevent puckers.

Have fun stitching!

Lucinda

<b>TIP #:</b>	<b>IMPORTANT TIPS:</b>
Tip 1:	For best stitch out results, use Terial Magic to treat your fabric before stitching. I saturate the entire fabric, so there are no missed spots, and then follow the manufacturer's instructions.
Tip 2:	Slow your machine speed down to half (or less) speed. For areas where you are stitching on top of already stitched objects, slow your machine to the lowest or second lowest speed to help prevent thread and needle breaks. Speed is not always your friend in machine embroidery.
Tip 3:	You may want to consider using the same color bobbin thread as the top thread, when using dark colored threads. If any bobbin thread happens to pull up from the bobbin, the stitch out will still look as it should.
Tip 4:	If there are any gaps in the stitching, or pulled up different color bobbin thread, use a PERMANENT FABRIC MARKER to carefully touch up the area in question.
Tip 5:	Use any size hoop, available in your machine brand, that best accomodates the size of the design.

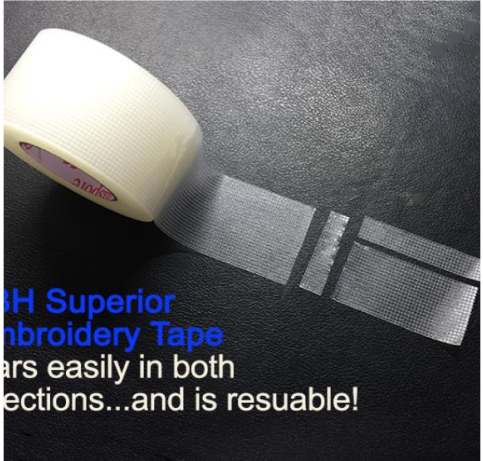

**PREP #: PREPARATION:**

Prep 1:	Cut fabric at least 2 inches larger than your hoop size. Example: For an 8 x 10 hoop, cut fabric to 10 x 12.
Prep 3:	Hoop fabric and one layer of FNSM stabilizer.
Prep 2:	Attach hoop to machine.

Item Name	Description	Photo
FPT: Floriani Pink Tape	<p>My favorite use of this is putting a length of tape parallel to the presser foot as a seam guide (make sure not to cover the feed dogs).</p> <p>I do not like it for securing fabric or stabilizer on or under the embroidery hoop, as it can come off and if stitched through, it's nearly impossible to remove.</p>	
FNSM: Floriani No Show Mesh stabilizer--comes in giant rolls and varying sizes and colors.	Cut away stabilizer that can be left in the project	

Item Name	Description	Photo
Floriani Perfect Stick Tearaway Stabilizer	<p>Embroidery in almost any area is achievable! Enjoy quality stitching with no residue build up or gummy needles. Floriani Perfect Stick Stabilizer is ideal for hard to hoop items such as bulky towels, backpacks, collars, napkin corners, or socks. Also use for fabrics that can be damaged by the hooping process, a.k.a. Hoop Burn; fabrics like leather, velvet, ultra-suede and satin. With Perfect Stick Stabilizer you will enjoy the stability of a firm yet flexible stabilizer that will support all types of embroideries on most fabrics.</p>

Craft Optics glasses	These are awesome for seeing finite detail. They are most helpful in working with black fabrics, seeing exactly where to place the seam ripper to remove any tiny stitches that need to be removed, aligning edges of fabrics, eg, folding bias strips in two, etc.

Electric Seam Ripper	Works really well and saves tons of time.	 <p>The image shows an Amazon product listing for a 'Fabric Quick Electric Seam Ripper'. On the left is a product photo of the ripper in its clear plastic packaging, which has a red label with the product name and a picture of the tool. To the right of the photo, the text reads: 'Fabric Quick Electric Seam Ripper', 'In Stock', 'prime &amp; FREE Returns', 'Gift options not available. Learn more', and a quantity selector set to 'Qty: 1' with 'Delete' and 'Save for later' buttons.</p>
Stylus---I love this tool and use it practically every time I sew.	This brass stiletto has a sharp point and does a superb job of holding fabric in place as you are sewing.	 <p>The image shows a 'Brass Stiletto' from Nifty Notions. It features a long, thin, sharp brass needle with a decorative handle. The product is displayed against a white background with a teal header that says 'Brass Stiletto'. To the left of the stiletto is the Nifty Notions logo, which includes the text 'ITEM # 7795' and 'EST. 1990'. To the right of the stiletto, vertical text reads 'Roll over image to zoom in'.</p>

Aileen's Fabric Fusion permanent fabric tape	<p>Whether you know how to sew and don't have time, or have never picked up a needle and thread in your life, Aleene's Fabric Fusion Permanent Tape is an easy alternative. Just press in place for instant permanent hold that's great for creating hems and much more. This double-sided instant fabric tape adheres a variety of fabrics without heat setting for a permanent bond that remains flexible, even after washing. So your fabrics move with you, not against you.</p>	

Item Name	Description	Photo
Aileen's Fabric Fusion permanent fabric glue	This permanent fabric adhesive offers crafters and fashion artists a great alternative to a needle and thread! This clear, water-based adhesive is nontoxic and machine washable, offering a permanent bond between fabrics and embellishments to fabrics with just the squeeze of a bottle. It is ideal for using with most fabrics, trims, sequins, rhinestones, beads and more.	
Alene's Tack-It Over & Over	<p>Use to temporarily position appliques or the seam allowances in preparation for stitching the seam.</p> <p>Also, fantastic to use with die cutting mats. Clean the mat with diaper wipes, then apply this product with a foam brush to the mat. The mat tackiness is now restored.</p>	

Item Name	Description	Photo
Folded Corner Clipper	This tool has many uses. My favorite use is cutting binding tail ends for the final join, after the binding is sewn to the quilt. The tails fit together like butter. No struggling to match up and sew the tails!	
Clover Wonder Clips	So much better than pinning so many cases, especially attaching binding to a quilt.
