Santa Napkin Rings
from Sher's Creative Space
and In the Hoop by Sher

100% of Stitching for this project is done in the hoop! (5 x 7 inch hoop)

They store flat you can make them for every occasion!

Thank you for purchasing a pattern from Sher's Creative Space! I hope you enjoy your embroidery design. If you ever have any questions, I'm only an email away.

sheryl@sherscreativespace.com

If you change the size or density of the original design, you could alter the final result.

Supplies for two napkin rings:
5 1/2 x 7 1/2 inch piece of vinyl
5 1/2 x 7 1/2 inch piece of felt, vinyl, or any other non-fraying fabric for backing
TEAR-AWAY stabilizer, a piece big enough for you to completely hoop (I use Pellon 806)
Embroidery thread, your choice of colors
   Your finishing thread should match or compliment your background color, and backing fabric color.
Two sets of snaps, KAM Snaps were used in this project

General supplies:
5 x 7 hoop, scissors, tape, embroidery needles, embroidery machine

---

• Unzip, then load your file into your machine.

• Hoop the stabilizer and attach hoop to machine. Do not put the vinyl on yet. The first set of stitching will be your placement stitches. You will stitch this right on the stabilizer. It doesn't really matter what color you use, because you will never see it. This is just so you know where to place your vinyl.

• Remove the hoop from machine. Place your vinyl fabric on top of your placement stitches. Be sure that you leave at least a quarter inch away from stitching for your margin which you will cut away later. Secure your vinyl (right side should be facing up) to the stabilizer and hoop to keep it in place. You can use scotch tape or painters tape.

• Stitch through the various color changes up until the last one. These are the details of your design. Before stitching the last color, remove the hoop from the machine.

• Place your backing fabric over the stitches you see on the underside of the hoop. Again, leave at least a quarter inch margin, and the right side (if you have a "right" side) should be facing up. Secure in place with tape. Stitch your last set of stitches.

• Remove from the machine and the hoop. Cut the piece into two individual sections. Tear your stabilizer from between your fabrics. Carefully cut all the way around each piece. Keep your cutting within 1/8 of an inch from the stitches.

TIP: If you plan to use these on paper napkins and plastic utensils, place the snaps closer to the design so it will be a tighter fit. You can even add an additional snap closer to the design if you prefer..

7. You will now attach your snaps. Apply them using the instructions that came with your snaps and special pliers. Just make sure that one of the snap tops (the smooth circle) is facing the outside of the napkin ring, and the other snap across from it, the shiny side is facing the inside.
