3-POCKET CARD HOLDER ITH

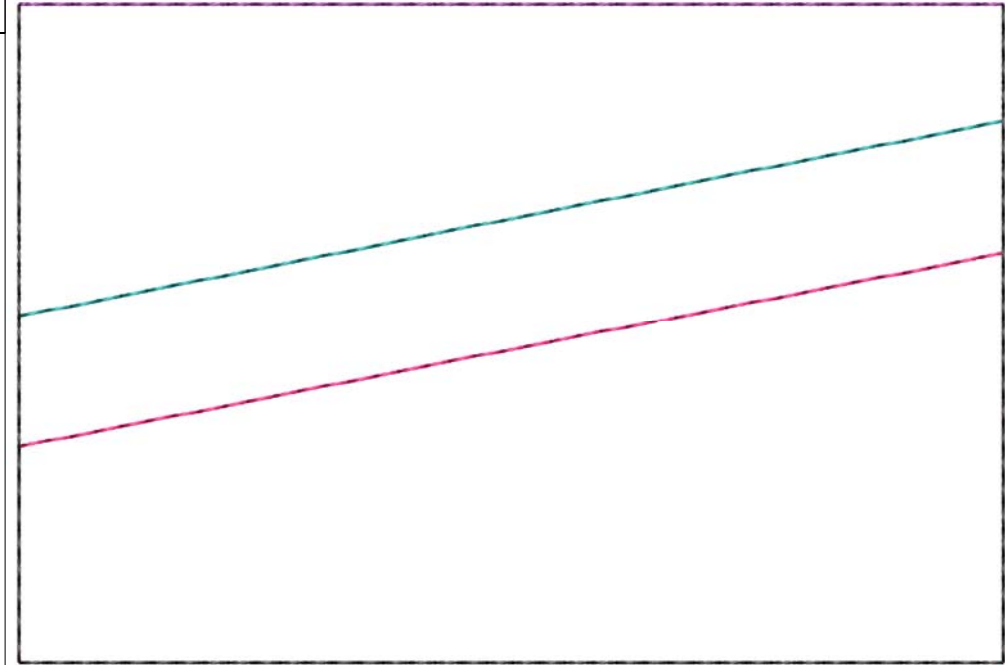

assembly instructions

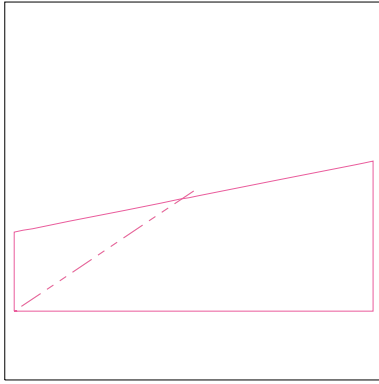

1. For this design, choose fabrics that won't fray, such as felt or vinyl.
2. Hoop your stabilizer. You can use water soluble stabilizer or tearaway stabilizer.
3. Stitch design step 1 onto the stabilizer, which is the placement step for the smallest pocket.
4. Place your fabric with the right side up, using the placement stitches as a guide. (If you like, you can use a little bit of adhesive to keep the fabric in place).
5. Next, stitch the tack down step. This will hold your fabric in place.
6. If you wish to add your own design to this lowest pocket, stitch that on now, staying within the pocket's stitch boundary.
7. Take the hoop off of your machine, but DON'T remove the design from the hoop. Trim your pocket along the top only, about 1/8 inch above the top stitch line. Trim to at least 1/2 inch or more around the other 3 sides. (You'll be doing a final trim around the left, right, and bottom later).
8. Stitch the next step of the design, which is a placement step for the middle pocket.
9. Flip the hoop over and place one piece of fabric for the middle pocket, using the placement stitch as a guide. The pretty side of the fabric should be facing the same way as your first pocket, with the "ugly" side on the back and the "pretty" side touching the stabilizer. Use pins, tape, or another temporary method to keep the bottom piece in place while sewing.
10. Stitch the tack down step for the second pocket to hold it in place.
11. As in step 7, trim the middle pocket to 1/8 inch above the stitch line, but leave at least 1/2 inch or more around the other 3 sides.
12. Stitch the next placement step, which is for the largest pocket.
13. Flip the hoop over and place one piece of fabric for the largest pocket, using the placement stitch as a guide. Just like the previous pocket, the pretty side of the fabric should be facing the same way as your first two pockets. Use pins, tape, or another temporary method to keep the bottom piece in place while sewing.
14. Stitch the tack down step for the largest pocket to hold it in place. DO NOT TRIM.
15. Flip the hoop over and place the final piece of non-fraying fabric on the back, which will have the same placement as the largest pocket. This time, you want the pretty side facing out, so that both pieces of the large pocket are right sides out, with the wrong sides sandwiched in the middle. Use pins, tape, or another temporary method to keep the bottom piece in place while sewing.
16. Place your hoop back on the machine and stitch the final finishing step. This will stitch around 3 sides of your design, while leaving the top of the largest pocket open.
17. Remove the design from your hoop and trim all layers of fabric around the entire perimeter, about 1/8 inch outside the outer stitch edge.
18. Remove the stabilizer.

Name: Slant 3 Card Holder ITH.vp3
Height: 2.50 in
Width: 3.74 in
Stitches: 992
Colors: 7
Color changes: 6
Trims: 6
Machine format: Bernina
Hoop: EMP6 (300 x 200)
Total bobbin: 6.37ft
