Design:Gingerbread Boy A

The Start (green S) and (red E) are both centered. This means the design will Start and End in the center of the design. You can print this out onto your favorite template material (tell printer to print Actual Size) and use for placement, as it is the actual size of the embroidery design.

Height:	6.02 in
Width:	5.60 in
Stitches:	8,013
Colors:	6
Color changes:	5
Trims:	13
Hoop:	Users choice
Total bobbin:	61.00ft

Color Sequence:

#	Color	Code	Name	Chart
1.		Place	Placement Line	
2.		Tack	Tack Down Line	
3.		767	Muted Spice	Floriani
4.		900	Black	Floriani
5.		190	Scarlet	Floriani
6.		800	Pure White	Floriani

Gingerbread Boy

1. Start applique design:
   a. Choose design and the size of design
   b. Load or send chosen design to embroidery machine
   c. Select threads using included thread charts
   d. Hoop project with appropriate stabilizer
2. Preparing applique fabric:
   a. Electronic cutter:
      i. Press fusible web to the back of fabric choice
      ii. Send the provided SVG file to your electronic cutter
      iii. Cut out shape
      iv. Skip to Step 3.
   b. PDF and scissors:
      i. Press fusible web to the back of fabric choice
      ii. Print the provided PDF…be sure to select **More Settings** then choose, **Actual Size** before printing.
      iii. Pin paper pattern to fabric
      iv. Cut out shape
      v. Skip to Step 3.
   c. Place and trim excess fabric:
      i. If you prefer to lay the fabric over the stitched placement line, then trim after the tack down stitching is complete, no fusible web is needed.
      ii. Cut fabric larger than the applique.
3. Stitch thread color #1, the placement line. The placement line is shown as blue, but this color is to stop the machine so you can perform a task, such as placing fabric. You will not use blue thread, but use Color #3 instead. This eliminates extra unnecessary thread changes.
4. Place fabric applique:
   a. Pre-cutout applique from Step 2A or 2B:
      i. Remove hoop from machine but do not un-hoop
      ii. Place applique snuggly into stitched placement line
      iii. Press in place
      iv. Return hoop to machine
      v. Skip thread color #2. We have fused the applique in place and do not need to do the tack down stitching Skip to Step 8.
   b. Place and trim fabric from Step 2C:
   i. Lay fabric to completely cover placement line

        ii.   Tape in place

5. Stitch thread color #3, the tack down line. This is shown in red, but this color is to stop the machine to perform a task, such as trimming the fabric. Use Color #3 instead to eliminate unnecessary thread changes.
6. Remove hoop from machine, but do not un-hoop. Trim the excess fabric really close to the stitching. This is stitched twice so do not worry about clipping the thread.
7. Return hoop to machine.
8. Stitch remaining colors 3-6.
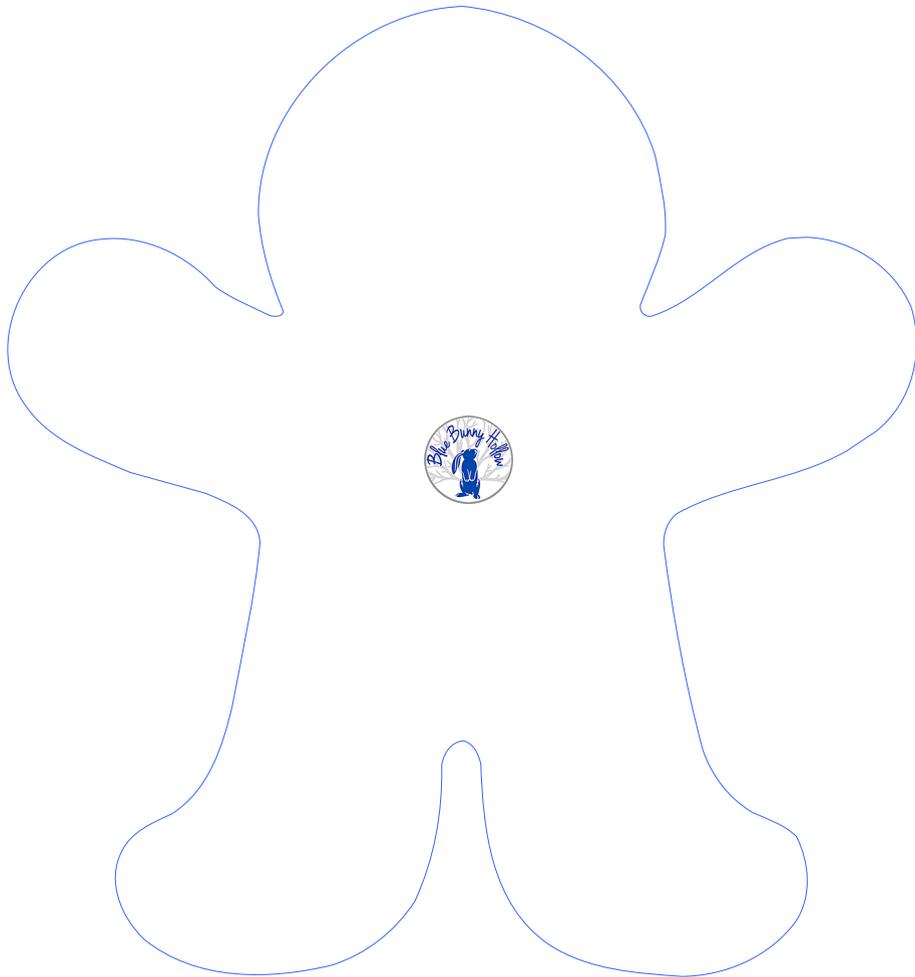

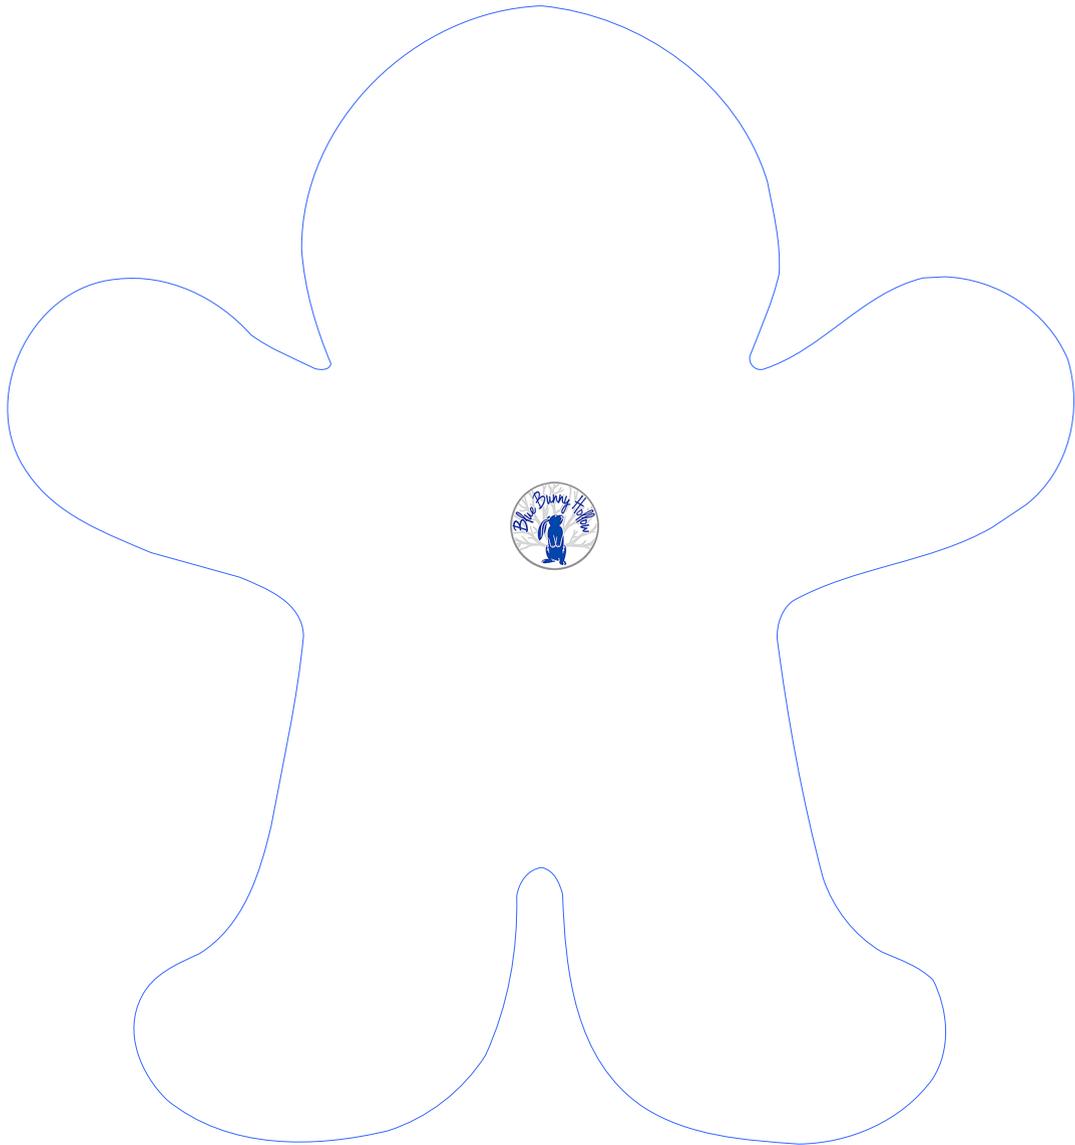

Enjoy your embroidery adventures!
