© Creative Fabrica

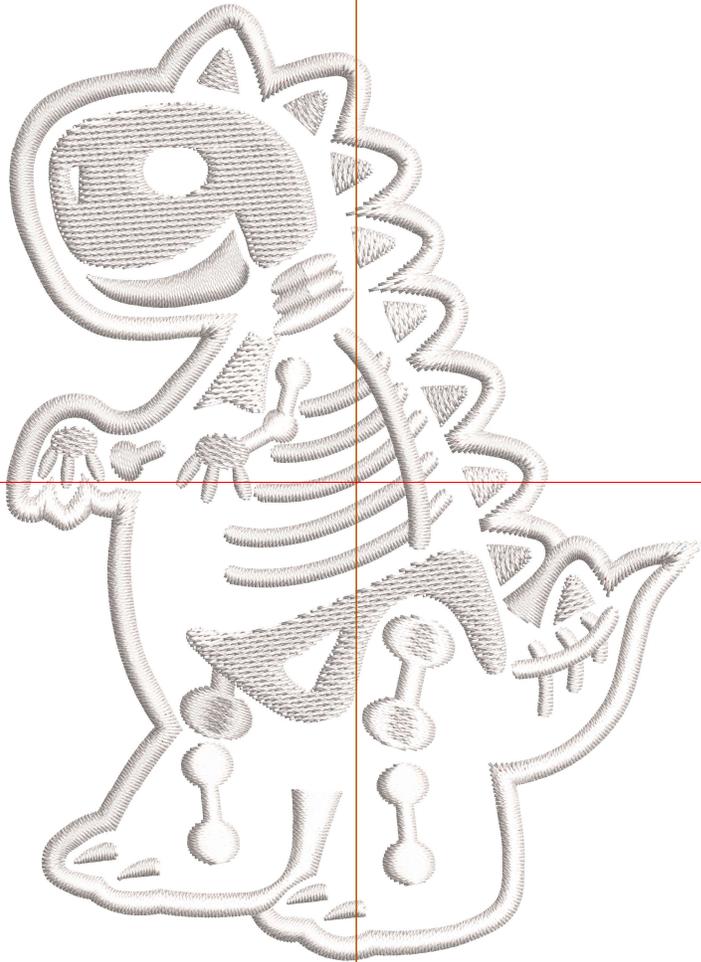

Design:Dinosaur 2C.

The Start (green S) and (red E) are both centered. This means the design will Start and End in the center of the design. You can print this out onto your favorite template material (set printer to print Actual Size) and use for placement, as it is the actual size of the embroidery design.

Height: 5.02 in
Width: 3.66 in
Stitches: 11,341
Colors: 3
Color changes: 2
Trims: 27
Hoop: Users choice
Total bobbin: 72.46ft

Color Sequence:

#	Color	Code	Name	Chart
1.			Place Placement Line	
2.			Tack Tack Down Line	
3.		800	Pure White	Floriani

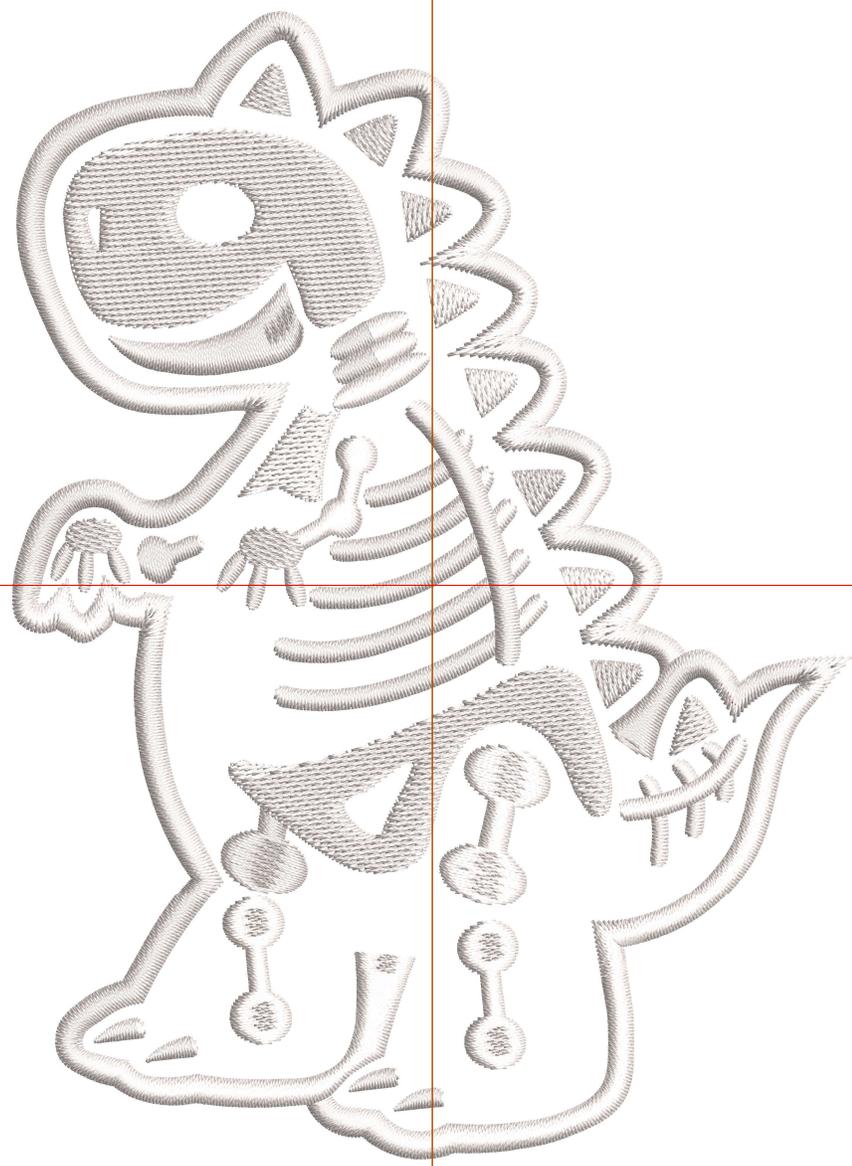

Design:Dinosaur 2B

The Start (green S) and (red E) are both centered. This means the design will Start and End in the center of the design. You can print this out onto your favorite template material (set printer to print Actual Size) and use for placement, as it is the actual size of the embroidery design.

Height: 6.02 in
Width: 4.38 in
Stitches: 14,119
Colors: 3
Color changes: 2
Trims: 28
Hoop: Users choice
Total bobbin: 100.91ft

Color Sequence:

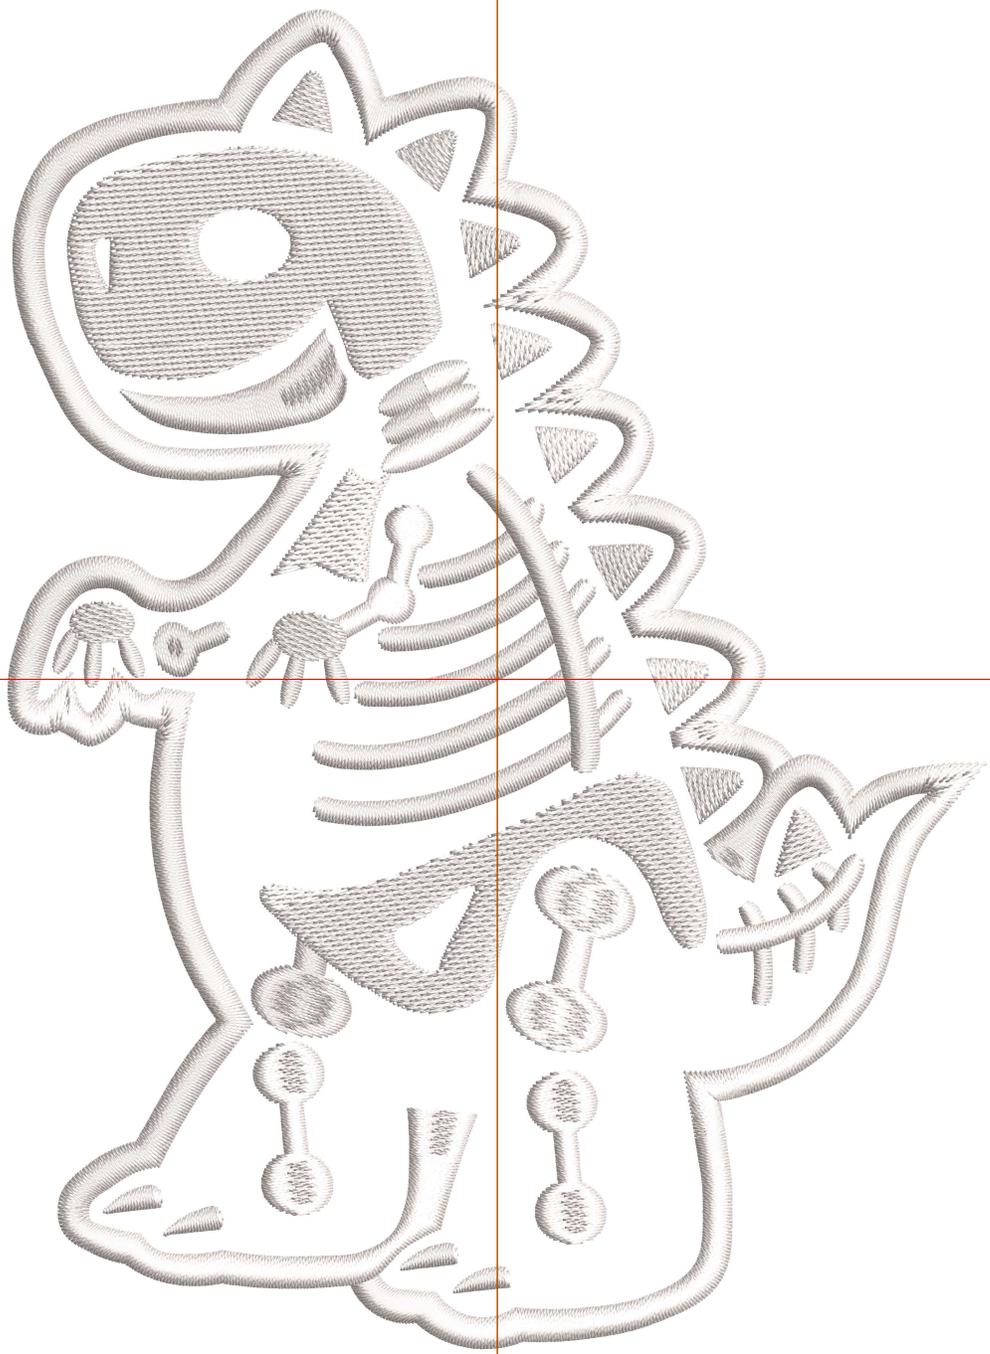

#	Color	Code	Name	Chart
1.			Place Placement Line	
2.			Tack Tack Down Line	
3.		800	Pure White	Floriani

Design:Dinosaur 2A

The Start (green S) and (red E) are both centered. This means the design will Start and End in the center of the design. You can print this out onto your favorite template material (set printer to print Actual Size) and use for placement, as it is the actual size of the embroidery design.

Height: 7.02 in
Width: 5.11 in
Stitches: 16,986
Colors: 3
Color changes: 2
Trims: 29
Hoop: Users choice
Total bobbin: 133.14ft

Color Sequence:

#	Color	Code	Name	Chart
1.	Blue		Place Placement Line	
2.	Red		Tack Tack Down Line	
3.	White	800	Pure White	Floriani

DINOSAUR APPLIQUE INSTRUCTIONS

This design uses fabric for the applique of the dinosaur. This can be pre-cut with the svg files, for electronic cutters, or pdf files, if you prefer to use scissors. These files are located in the Cut Files Folder. If you want to use the style of placing the fabric and trimming after the tack down stitching those instructions are provided.

Pre-cutting applique:

Electronic Cutters: Press fusible web to the back of fabric choice. Select the size design for the project and send the svg file to electronic cutter. They are not mirror imaged so if you are putting the fabric right side down, you will need to mirror image the pieces. **NOTE:** If you purchased this design on Creative Fabrica, there are no svg file. We are not able, at this time, to upload this type of file for embroidery designs. However, you can scan the pdf and send it to your electronic cutter.

PDF/Scissors: Press fusible web to the back of fabric choice. First set printer to print Actual Size. Then print out the PDF file for the size design selected. Rough cutout the image. Pin paper image to fabric choice, then cutout the applique on the line.

Trimming after tack down stitching:

If you are using the tack down/trim excess fabric style, cut a piece of fabric large enough to cover applique areas.

Embroidering

1. Use included color chart. **NOTE:** The design shows white thread for the satin stitching. However, I used Floriani #273 because of my fabric choice.
2. Stitch thread color #1, the placement line, shown in blue, shows where to place the fabric. Blue is used to stop the machine so you can do a task, like add fabric. However, you will use thread color #3 instead of blue thread (eliminating unnecessary thread changes).
3. **Placing pre-cut applique fabric:**
 - a. Remove hoop from machine (DO NOT un-hoop)
 - b. Place applique, fabric side up, snugly into placement outline.
 - c. Press in place
 - d. Return hoop to machine.
 - e. The tack down line is not needed as the applique is fused into place, Skip to Step 8.
4. **Placing applique fabric for tack down and trimming excess fabric:**
 - a. Lay a piece of fabric large enough to cover placement lines.
 - b. Tape in place so the fabric does no shift during stitching

5. Stitch thread color #2, this is the tack down line and is shown in red. Again, instead of red thread you will use thread color #3.
6. After tack down stitching has finished, remove hoop from machine, do not un-hoop, and trim excess fabric away close to the outside of the stitching.
7. Return hoop to machine.
8. Stitch remaining color.

Enjoy your embroidery adventures!
